

Mission

Expert in driving complex, cross-functional technical programs, establishing rigorous service level objectives (SLOs), and architecting operational bridges between technical engineering teams, external clients, and sustainable enterprise outcomes.

Education

Master of Science in Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

Relevant Coursework Highlights:

Data Warehousing and Analytics | Simulation Modeling & Analysis | Modern Regression Analysis |
Corporate Finance | Investment Analysis | Data Visualization | Data Mining for Business Analytics |
Principles of Database Management | Programming for Analytics.

GPA:

3.525

Bachelor of Arts in French, minor in Art History

Francis Marion University, Florence, SC

GPA:

3.633

Technical Skills

Programming & Scripting: Python (Data Mining, ELT, Complex Visualization), R (Multiple Linear Regression, Stepwise Optimization, ANOVA), SQL (PostgreSQL/MySQL), YAML, Agile Frameworks (Scrum/Kanban/SAFe), API Logic, Schema Mapping.

Visualization & Analytics Modeling: Advanced Excel (Analytic Solver, Complex Data Modeling, Trend Reporting), Tableau, Plotly, Google Data Studio.

System Architecture & SaaS Governance: Data Governance (HIPAA, PHI/PII Protection), Alteryx (Designer Core Certified), dbt (Data Build Tool), BigQuery; engineered automated pipelines to ensure 100% data integrity for public-sector reporting

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | 2021–2026

- **Enterprise Program Auditing & Stakeholder Management:** Audited operational baselines and front-line data fidelity during an enterprise-wide Epic migration for an 18,000-patient ecosystem; presented status insights directly to C-suite executives to ensure system configurations met rigid regulatory compliance frameworks.
- **Operational Optimization:** Improved resolution speed for complex patient-provider data conflicts by over 50%, leveraging expert system navigation to reduce average handling time from 45 to 20 minutes.
- **Systemic Stabilization & Triage:** Resolved 10–20 high-friction systemic issues daily, specifically bridging navigation gaps for trans and nonbinary individuals to ensure equitable access to care.
- **Labor Governance & Advocacy:** Elected Union Delegate representing 300+ staff members (60% of workforce); navigated two successful contract negotiations with executive leadership to ensure organizational policies remained mission-aligned.
- **Project Delivery & Issue Resolution:** Conducted rigorous compliance audits of user provisioning and permissions logic during a major system transformation; served as a primary cross-functional liaison to synthesize stakeholder feedback, map systemic friction points, and implement operational workarounds to prevent service delivery gaps.

Event Coordinator, F&B Reservation Agent, and Server | The Standard Hotel & ABCV | 2015-2021

- **Synchronized Multi-Platform Logic:** Orchestrated high-volume operational data and customer logic for 7 NYC-based venues across 2 flagship hotels utilizing SevenRooms and Tripleseat.
- **Validated Enterprise Database Integrity:** Safeguarded high-fidelity record validation within a shared global CRM database, ensuring local data accuracy for 300+ daily guest interactions.
- **Negotiated Fiscal Stewardship:** Facilitated small-scale event contracts and procurement; ensured 100% accuracy in contract fulfillment and client expectations for localized revenue streams.
- **Spearheaded High-Concurrency Performance (ABCV):** Coordinated breakfast service for 11 concurrent tables (22–44 patrons) during peak demand; applied real-time resource routing and cross-functional teamwork to maintain service excellence in a high-stress environment.

Senior Program & Account Lead | Del Monsoon | 2010–2019

- **Program & Project Delivery:** Served as primary point of accountability for end-to-end program execution, managing complex operational dependencies and scaling project teams from a 2-person nucleus to 100+ cross-functional personnel.
- **Fiscal Stewardship & Procurement:** Managed project spend, invoicing, and vendor logistics, identifying organic growth opportunities that generated \$60K+ in new-business streams.
- **CRM & Stakeholder Management:** Managed high-fidelity operational data within regional platforms to evaluate program effectiveness and drive data-based decision-making.

Technical Portfolio & Active Architecture

PEX Project (Operational Evaluation: Statistical NLP Pipeline) | 2026

- **Methodological Design:** Scoping an automated, repeatable Statistical NLP workflow utilizing Python, TF-IDF feature extraction, and KMeans clustering to evaluate high-volume, unstructured stakeholder survey data.
- **Reproducible Analytics:** Establishing fixed mathematical parameters to dynamically categorize qualitative feedback into actionable operational insights, replacing manual data tallying with highly scalable, reproducible text analytics.

WHO Project (System Architecture & Workflow Evaluation: Healthcare Access Routing Engine) | 2026

- **Technical Scoping & Optimization:** Evaluated initial data warehouse architecture against front-line stakeholder latency needs, successfully pivoting the project scope to a serverless AWS (S3/Lambda) model to optimize real-time application performance.
- **Implementation & Pipeline Engineering:** Architecting a Python-based data bus to ingest, process, and normalize disparate API endpoints; designed explicit data transfer setup metrics and schema validation tests to combine geospatial and system data into a unified engine.
- **Operational Validation:** Partnering directly with clinical teams to validate assumptions and problem statements, ensuring the proposed automation logic accurately mitigates systemic barriers in behavioral health referrals.

Quantitative Methods & Academic Projects

CIP Project (Geospatial Advocacy & Predictive Modeling) | 2026

- **Serverless ELT Architecture:** Engineered automated Python ingestion applications deployed on Google Cloud Run to stream high-volume municipal datasets via the Socrata API directly into Google BigQuery.
- **Dynamic Schema Validation:** Implemented custom data normalization routines, multi-field deduplication (QUALIFY ROW_NUMBER()), and automated schema mutation logic to handle streaming JSON variables without breaking downstream tables.
- **Kimball Dimensional Modeling:** Developed a dbt transformation architecture compiling disparate raw datasets into a unified star schema with conformed shared dimensions (dim_shared_date, dim_shared_geography) and multi-fact table tracking.

SDOH Project (Epidemiological & Social Determinants of Health Analytics Engine) | 2026

- **Multi-Layer Data Integration:** Engineered an analytical script to clean, merge, and evaluate multi-sheet municipal public health data matrices (Prevalence, Care Linkage, Viral Suppression) alongside Social Determinants of Health (SDOH) indicators across 186 conformed ZIP code zones.
- **Statistical Stability Auditing:** Programmed data-cleaning logic to isolate and map privacy-suppressed negative integers to null spaces, executing programmatic diagnostic sweeps across 10 distinct rate-stability vectors to evaluate data degradation and historical reporting risks.
- **Geographic Variance Profiling:** Executed comprehensive multi-variable correlation matrices and Poisson regression modeling with exact p-value mapping, utilizing a customized Z-score spread model to rank descriptive geographic and demographic variations across high-risk intersectional sub-populations.

Additional Skills & Certifications

Alteryx Designer Core Certification

Alteryx

Certified Teaching English as a Second or Foreign Language/ESL Language Instructor

Literacy Assistance Center Academy, New York, NY

Certified DELF A1/A2

Université de Caen Basse-Normandie, Caen, France

Certified COVID-19 Contact Tracer

Johns Hopkins University, Coursera.org

Community Leadership

Co-Founder & Event Producer | Queer Roots Cinema | 2021–Present

Co-founded and lead end-to-end production for a 30-member intergenerational community program, facilitating inclusive discussion and event logic.

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
