

Mission

Expert in architecting technical and operational bridges between public policy, C-suite strategy, and front-line data integrity for complex civic and healthcare infrastructure.

Education

Master of Science in Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

Relevant Coursework Highlights:

Data Warehousing and Analytics | Simulation Modeling & Analysis | Modern Regression Analysis |
Corporate Finance | Data Visualization | Data Mining for Business Analytics | Principles of Database
Management | Programming for Analytics.

GPA:
3.431

Bachelor of Arts in French, minor in Art History

Francis Marion University, Florence, SC

GPA:
3.633

Technical Skills

Programming & Scripting: Python (Data Mining, ELT, Complex Visualization), R (Multiple Linear Regression, Stepwise Optimization, ANOVA), SQL (PostgreSQL/MySQL), YAML, Agile, API Logic.

Visualization & Reporting: Tableau, Plotly, Google Data Studio.

System Architecture & SaaS Governance: Alteryx (Designer Core Certified), dbt (Data Build Tool), BigQuery; engineered automated pipelines to ensure 100% data integrity for public-sector reporting.

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | 2021–2026

- **Strategic System Governance:** Directed technical advocacy for an 18,000-patient ecosystem during an enterprise-wide Epic migration, reporting directly to the CEO and COO to align technical configurations with clinical reality.
- **Operational Optimization:** Improved resolution speed for complex patient-provider data conflicts by over 50%, leveraging expert system navigation to reduce average handling time from 45 to 20 minutes.
- **Systemic Stabilization & Triage:** Resolved 10–20 high-friction systemic issues daily, specifically bridging navigation gaps for trans and nonbinary individuals to ensure equitable access to care.
- **Labor Governance & Advocacy:** Elected Union Delegate representing 300+ staff members (60% of workforce); navigated two successful contract negotiations with executive leadership to ensure organizational policies remained mission-aligned.
- **Functional Platform Ownership:** Managed end-to-end user provisioning, permissions logic, and configuration alignment for 18,000+ users during enterprise-wide system transformation

Server, F&B Reservation Agent, and Event Coordinator | The Standard & ABCV | 2015-2021

- **Synchronized Multi-Platform Logic:** Orchestrated high-volume operational data and customer logic for 7 NYC-based venues across 2 flagship hotels utilizing SevenRooms and Tripleseat.
- **Validated Enterprise Database Integrity:** Safeguarded high-fidelity record validation within a shared global CRM database, ensuring local data accuracy for 300+ daily guest interactions.
- **Negotiated Fiscal Stewardship:** Facilitated small-scale event contracts and procurement; ensured 100% accuracy in contract fulfillment and client expectations for localized revenue streams.
- **Spearheaded High-Concurrency Performance (ABCV):** Coordinated breakfast service for 11 concurrent tables (22–44 patrons) during peak demand; applied real-time resource routing and cross-functional teamwork to maintain service excellence in a high-stress environment.

Senior Program & Account Lead | Del Monsoon | 2010–2019

- **Operational Leadership & Governance:** Supervised cross-functional teams of 20–40 personnel, maintaining operational continuity and fiscal stewardship for large-scale projects with 1,000+ attendees.
- **Fiscal Stewardship & Procurement:** Managed project spend, invoicing, and vendor logistics, identifying organic growth opportunities that generated \$60K+ in new-business streams.
- **CRM & Stakeholder Management:** Managed high-fidelity operational data within global platforms to automate reporting and drive data-driven decision-making for high-net-worth accounts.

Strategic Initiatives & Applied Research

Operational Research: NLP Patient Sentiment Analysis (Active Partnership) | 2026

Design & Strategy: Partnering with clinical leadership to design a Python-based NLP pipeline intended to extract sentiment from qualitative patient surveys.

Equity-Focused Logic: Architecting the foundational data schema to transform disparate feedback into actionable metrics for service delivery improvement.

Applied Data Architecture: Healthcare Access Source of Truth (Active Phase) | 2026

Pipeline Engineering: Engineered an initial dbt pipeline to ingest and transform 400,000+ NYS Medicaid records into a centralized BigQuery repository.

Complex Logic Integration: Collaborating with senior academic faculty to architect the secondary ingestion logic for Medicare provider datasets, aiming to bridge the "referral gap" in residential care.

Quantitative Methods & Academic Projects

Geospatial Advocacy & Predictive Modeling: Engineered a contextual model using Poisson Regression to evaluate resource drivers in NYC; identified critical institutional anomalies to prevent the misallocation of public resources.

Healthcare System Simulation: Developed Monte Carlo simulations to identify operational bottlenecks and improve system efficiency in high-concurrency care models.

Additional Skills & Certifications

- Alteryx Designer Core Certification
Alteryx
- Certified Teaching English as a Second or Foreign Language/ESL Language Instructor
Literacy Assistance Center Academy, New York, NY
- Certified DELF A1/A2
Université de Caen Basse-Normandie, Caen, France
- Certified COVID-19 Contact Tracer
Johns Hopkins University, Coursera.org

Community Leadership

Co-Founder & Event Producer | Queer Roots Cinema | 2021–Present

Co-founded and lead end-to-end production for a 30-member intergenerational community program, facilitating inclusive discussion and event logic.

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
