Preston Leslie

Senior Implementation Consultant | Systems Scientist | SQL · Python
· dbt | 15 Years of Operational Leadership
New York, New York, United States

Summary

I am a technical strategist and systems scientist with 15 years of operational leadership and a deep focus on quantitative modeling. Currently completing an MS in Quantitative Methods at Baruch, I specialize in the "technical plumbing" that bridges the gap between complex data infrastructure and the end-users who rely on it.

Throughout my career in high-stakes environments, from NYC healthcare systems to global hospitality logistics, I've seen firsthand how technical bottlenecks impact both user experience and business health. I thrive as a translator between non-technical stakeholders and engineering teams, ensuring that a brand's technical ecosystem is as logical as it is impactful.

Whether I am architecting data pipelines using SQL, dbt, and BigQuery to uncover inefficiencies, or facilitating the enterprise-wide adoption of new software, my goal is the same: to turn technical "machinations" into high-value operational outcomes.

Experience

Freelance

Personal Assistant

December 2010 - Present (15 years 8 months)

New York City Metropolitan Area

Dedicated Client Success: Provided high-touch, dedicated logistical support and tailored business solutions for a curated portfolio of 1-2 concurrent clients.

Cross-Functional Project Leadership: Directed project workflows and delegated tasks for distributed teams of up to 20+ individuals across high-stakes initiatives.

International Compliance & Documentation: Guided foreign clients through the complex processing and comprehension of US documents, taxes, and policies.

Callen-Lorde Community Health Center

5 years

Lead Patient Care Associate

April 2022 - March 2026 (4 years)

New York City Metropolitan Area

System Administration & Data Fidelity: Managed complex user workflows and ensured strict data input fidelity across enterprise-level database systems for a high-volume organization.

Workflow Optimization & User Advocacy: Acted as the voice of the end-user by identifying software bottlenecks and workflow inefficiencies; collaborated directly with the Operations teams to implement technical solutions and hit seasonal metric goals.

Technical Onboarding: Served as the primary preceptor, designing and leading the technical onboarding for staff on new software workflows and system best practices.

Data Analytics & Reporting: Partnered with the Analytics team, utilizing SQL to extract, clean, and analyze complex database records to generate critical compliance and financial reimbursement reports.

Patient Care Associate

April 2021 - April 2022 (1 year 1 month)

New York, United States

Provided front desk reception and maintained an efficient flow of patients, visitors, and phone calls into the electronic health record (EHR)/electronic medical record (EMR).

Supported clinical staff with clerical work and the data entry of patient registration, billing, and payment data.

Acted courteous, patient, and professional at all times.

Taught center wide practices as a preceptor

Del Monsoon

Project Consultant

December 2010 - January 2020 (9 years 2 months)

United States

Cross-Functional Strategy: Orchestrated cross-functional initiatives, interfacing between diverse moving parts and stakeholders to execute complex operational and growth strategies.

Market Expansion & Partnerships: Cultivated strategic partnerships with key B2B stakeholders, driving market expansion and regional brand presence on the East Coast.

Voice of Customer (VoC) Data Collection: Built and deployed user surveys utilizing platforms like Survey Monkey and Constant Contact to gather actionable feedback and insights.

Innovative Problem Solving: Analyzed stagnant markets to identify new revenue opportunities, opening the floor to non-traditional strategies like targeted rural digital marketing.

Team Leadership: Mentored and managed teams of staff and volunteers, fostering a culture of high performance and collaborative problem-solving.

Kingsbridge Heights Community Center

Administrative Assistant

November 2017 - September 2019 (1 year 11 months)

New York City Metropolitan Area

User Assessment & Data Entry: Conducted standardized intake assessments for incoming users, accurately recording responses into specialized evaluation software to drive placement decisions.

Internal Team Enablement: Supported a cross-functional team of up to 4 educators, providing both in-classroom enablement and robust administrative support.

Data Tracking & Performance Analytics: Utilized Microsoft Office and advanced pivot tables to track, analyze, and report on user performance data.

Regulatory Compliance: Researched and executed internal processes to ensure strict adherence to New York City contract guidelines and compliance standards.

Mary-Nez

Assistant Pattern Maker

March 2018 - December 2018 (10 months)

New York City Metropolitan Area

VIP Account Fulfillment: Maintained exacting product standards for high-profile client accounts, including Serena Williams' sportswear line, custom bridal, and formal wear.

Quality Control & Agile Production: Ensured rigorous quality control and prepared technical materials within a lean, agile 5-person production team.

Inventory & Resource Management: Organized and allocated materials and stock to ensure seamless project execution and reduce bottlenecks.

The Standard, High Line

2 years 8 months

Regional F&B Reservation Agent

January 2016 - October 2017 (1 year 10 months)

New York City Metropolitan Area

CRM Administration & Data Integrity: Administered complex CRM systems, meticulously inputting, updating, and exporting client contact information and historical data.

Personalized User Experience: Leveraged CRM software to track and act on previous guest notes, crafting highly unique, tailored experiences that drove client retention.

Enterprise Software & Logistics: Managed complex account logistics and generated contracts, expense reports, and invoice documents using enterprise software (Tripleseat) and advanced Excel.

Product Expertise & De-escalation: Acted as a trusted product expert, maintaining deep knowledge of complex offerings to advise clients, address specific concerns (like dietary restrictions), and consistently exceed expectations.

Cross-Platform Scheduling: Coordinated high-volume scheduling and logistics across multiple platforms (Outlook, Google Calendar), sending critical reminders to ensure seamless execution of client events.

Server

March 2015 - January 2016 (11 months)

New York City Metropolitan Area

Darden Restaurants

Host/To Go Specialist/Server

March 2008 - May 2015 (7 years 3 months)

New York City Metropolitan Area

Concurrent Account Management: Managed active service lifecycles for up to 3 concurrent client accounts (ranging from 2-7 individuals), consistently assessing needs and endorsing optimal products.

Autonomous End-to-End Execution: Independently handled end-to-end fulfillment—from initial intake to final delivery—navigating a high-pressure, fast-paced environment with minimal support staff.

Financial Reconciliation: Ensured accurate financial processing and maintained accountability for end-of-shift revenue reconciliation.

American Apparel

Seasonal Display Team Member

September 2013 - January 2014 (5 months)

New York City Metropolitan Area

Regional Project Deployment: Collaborated on the deployment and installation of time-sensitive visual projects across a portfolio of 6+ retail locations spanning NYC, New Jersey, and Long Island.

A/B Testing & User Experience: Experimented with design variables (color, fabric) to generate specific user moods and drive engagement.

Cross-Functional Execution: Utilized specialized tools and maintained strict brand uniformity while working highly flexible hours to meet overnight deployment deadlines.

Darlington County Library

Page

2006 - 2007 (1 year)

Darlington, South Carolina

Maintained detailed cataloging and data organization for a high-volume public resource center.
