Professional Summary

Dedicated Healthcare Systems Analyst seeking the Application Systems Analyst II – Imaging & Cardiology Systems position. Brings 15 years of operational support experience optimizing enterprise Information Systems workflows, delivering application support, and maintaining data integrity in a fast-paced healthcare setting. Proven track record of gathering business requirements, executing software testing, conducting analytical research, and diagnosing bottlenecks during complex EHR migrations. A committed professional with strong verbal and written communication skills, aligning Information Technology architectures with clinical operations and change control standards.

Core Competencies

- **Systems Analysis & Application Support:** Application Support, Production Support, Operational Support, System Enhancements, System Integration Protocols, User Acceptance Testing (UAT), Incident Triage & Troubleshooting, Change Control, Flow Charts & Workflow Mapping
- **Information Systems & Data Logic:** SQL Data Querying, Python Scripting, Database Fundamentals & Schema Mapping, Data Quality Auditing, Advanced Microsoft Excel, Analytical Skills & Research
- **Stakeholder Leadership & Governance:** Verbal and Written Communication Skills, Interpersonal Skills, Business Requirements Gathering, Cross-Group Collaboration, Joint Labor-Management Governance, Technical Documentation & Runbooks, SLA Compliance

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Enterprise EHR Migration & Systems Analysis:** Navigated core software architecture for an 18,000-user ecosystem during an intensive NextGen-to-Epic system migration; audited source-to-destination field mapping and analyzed data collection models to preserve critical EHR demographic layers, support system enhancements, and maintain integration standards across enterprise Information Systems.
- **Incident Management & Telemetry Tracking:** Engineered a tracking framework in Microsoft Excel to capture capacity telemetry, monitor processing bottlenecks, and provide Tier-2 application support and operational support; conducted independent root-cause analysis and research to troubleshoot system configuration errors, delivering actionable problem solving to technical teams in a healthcare setting.
- **UAT & Workflow Documentation:** Partnered with clinical stakeholders to execute User Acceptance Testing (UAT) and system configuration adjustments, reducing issue latency by 50%; developed process flow charts and authored foundational technical specifications used by management to publish support runbooks, upholding change control standards while respecting labor governance boundaries.
- **Cross-Functional Labor Governance:** Elected 1199SEIU Union Delegate representing 300+ personnel; collaborated directly with executive leadership and Human Resources to translate complex frontline operational friction into structured customer requirements while navigating organizational change management boundaries.
- **Training & Onboarding:** Designed and delivered onboarding training to incoming staff on system navigation, data entry standards, and workflow documentation to support consistent data quality.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.

- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility to make critical decision making choices and manage prioritization of competing requirements.
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Project Execution & SLA Tracking:** Served as primary point of accountability for end-to-end project execution, prioritizing critical path deliverables and coordinating complex operational dependencies across teams of up to 100+ personnel.
- **Fiscal Stewardship & Resource Management:** Managed localized project budgets, vendor billing logs, and performance trends to ensure zero deficit across cross-functional program deployments.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and prioritization of client needs under tight timelines.
- **Cross-Cultural Regulatory Navigation:** Offered solutions to international clients by guiding them through complex US compliance documentation and tax requirements, utilizing deep business knowledge.

Technical Portfolio & Academic Projects

- *PEX Project (Patient Experience NLP Pipeline):* Architected machine learning workflows using NLP and Python to cluster unstructured patient feedback, identifying operational friction and retention risks.
- *WHO Project (Healthcare Access Architecture):* Designing a serverless AWS (Lambda, S3) cloud framework to transition manual referral workflows into an automated data pipeline with Python routing buses.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models across 141 NYC ZIP codes; programmed Pandas scripts to map privacy-suppressed records and troubleshoot database anomalies.

Education

Master of Science, Quantitative Methods and Modeling | *Baruch College, Zicklin School of Business, New York, NY* GPA: 3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History) | *Francis Marion University, Florence, SC* GPA: 3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation
