

Professional Summary

Quantitative Modeler and Business Analyst of ERP Systems with 15 years of experience driving optimization across information technology and decentralized operational environments. Builds database pipelines and analytical frameworks that prioritize frontline workflow reality and business process reengineering over boardroom vanity metrics. Holds an MS in Quantitative Methods & Modeling from Baruch College.

Core Competencies

Data Engineering & Analytics

- ETL/ELT Pipeline Architecture
- Kimball Dimensional Modeling
- Cloud Data Warehousing (GCP)
- Python / SQL / dbt / Alteryx
- Operating Systems & Object-oriented design

Operations & Governance

- Business Process Reengineering & Process maps
- SLA Compliance & Incident Triage
- Technical Documentation & Operating Procedures
- Data Quality Auditing & Governance
- Budget Monitoring & Expense Tracking

Stakeholder Leadership

- Business Requirements & Requirements Gathering
- Agile software development & Waterfall SDLC
- Executive-Level Briefings & Presentations
- Functional Specifications & Security Guidelines
- Cross-Functional Coordination & Problem Solving

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Enterprise ERP Migration & Business Analysis:** Led post-implementation auditing for an 18,000-user ecosystem during an intensive NextGen-to-Epic ERP system migration; provided targeted analytical support to critique planning shortfalls and preserve critical database demographic layers.
- **Gap Diagnosis & Telemetry Tracking:** Engineered a post-migration tracking system to capture capacity telemetry and monitor processing bottlenecks; conducted root-cause analysis that isolated an unflagged hardware constraint, providing consultative support to cross-functional teams to troubleshoot errors and communicate complex technical information to stakeholders.
- **User Testing & Workflow Remediation:** Partnered with stakeholders to conduct localized user testing and User Acceptance Testing (UAT) to minimize service disruptions; managed workflow remediation that reduced issue latency by 50% and tracked division efficiency against departmental OKRs.
- **Cross-Functional Leadership & Labor Governance:** Heavily consulted by management as the Behavioral Health subject-matter expert to translate operational friction into structural requirements; elected 1199SEIU Union Delegate representing 300+ personnel, navigating contract negotiations directly with executive leadership.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue Data Coordination:** Orchestrated high-volume customer logic across 7 NYC venues using SevenRooms and Tripleseat, maintaining 100% record validation accuracy for 300+ daily guest profiles within a shared global CRM.
- **High-Concurrency Service Logistics:** Maintained ownership of real-time resource routing and service logistics for up to 44 patrons simultaneously under high-stress, peak-demand conditions.

Preston Carey Leslie

843-694-6959 | prestoncarey90@gmail.com | prestoncarey90.github.io/portfolio/ | linkedin.com/in/preston-leslie

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Business Process Analysis & Project Execution:** Accountable for end-to-end project execution, utilizing agile concepts to coordinate complex operational dependencies and mobilize teams of 100+ personnel in dynamic environments.
- **Fiscal Stewardship & Vendor Management:** Managed project budgets, invoicing, and vendor logistics; supported fundraising events generating \$60K+ in revenue.

FREELANCE & INDEPENDENT WORK | October 2018 – December 2020

Personal Assistant & Project Manager | Independent Contractor

- **International Project Coordination:** Managed personal and business calendars, coordinated cross-functional communications between project teams, and orchestrated complex international travel logistics and vaccination documentation.
- **Regulatory Navigation:** Guided foreign clients through cross-cultural communication and compliance barriers to accurately file US documentation and taxes.

Technical Portfolio & Academic Projects

- *CIP Project (Geospatial Advocacy and Predictive Analytics):* Engineered automated Python ingestion applications on Google Cloud Run; built dbt transformation architecture compiling disparate raw datasets into a unified Kimball star schema with conformed shared dimensions.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health outcomes across 141 NYC ZIP codes; programmed data-cleaning logic to map privacy-suppressed negative integers and isolate geographic variance.
- *PEX Project (Statistical NLP Pipeline):* Architecting unsupervised machine learning workflows utilizing NLP (TF-IDF, KMeans clustering) to cluster unstructured feedback data and expose churn risks.
- *WHO Project (Healthcare Access System Architecture):* Architecting the conceptual framework to map legacy systems to a serverless AWS footprint (Lambda, S3); designing the structural blueprints and data flow specifications for Python data buses and REST API integrations.

Education

Master of Science, Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:

3.525

Bachelor of Arts, French (minor: Art History)

Francis Marion University, Florence, SC

GPA:

3.633

Graduated cum laude with University Honors | Dean's List (Fall 2008, Fall 2012) | President's List (Fall 2009, Spring 2011, Spring 2012) | LIFE Scholarship Recipient

Certifications & Community

Alteryx Designer Core Certified | Certified TESLA Instructor | Co-Founder, Queer Roots Cinema

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
