Professional Summary

Business Systems Analyst and Operations Specialist holding a Master of Science in Quantitative Methods & Modeling from Baruch College, with 5+ years of experience in business process analysis, information technology support, enterprise application migrations, and organizational change. Proven track record in public service environments auditing source-to-destination database structures, translating complex technical information for non-technical users, and conducting post-migration incident triage. Dedicated to effective communication, team collaboration, and optimizing enterprise business applications for maximum usability.

Core Competencies

- **Business Systems & Migration:** Enterprise Application Migration, Business Process Analysis, Enterprise Asset Management System Tracking, Source-to-Destination Database Structures, Post-Migration Incident Triage
- **Compliance & Governance:** HIPAA & Industry Standards, EHR Data Privacy, Criminal Justice Information Services (CJIS) Alignment, Inter-Agency Documentation Auditing, PCI Compliance
- **Project Management & Organizational Change:** Organizational Change & User Adoption, Information Services & IT PMO Alignment, Process Changes, Requirements Gathering, Staff Training
- **Technical Documentation & Tools:** Technical Expert Application Support, Technical Information Translation, Usability Optimization, Advanced Microsoft Excel, Business Applications (Epic, NextGen, SevenRooms)

Professional Experience

Lead Patient Care Associate | Callen-Lorde | April 2021 – March 2026

- **Enterprise Migration & Regulatory Data Governance:** Navigated core information technology architecture for an 18,000-user ecosystem during a major platform migration (NextGen to Epic); maintained industry standards for EHR data privacy, audited source-to-destination field mapping, and validated database structures across sensitive patient demographics.
- **Incident Triage & System Usability Optimization:** Engineered a central tracking system in Google Sheets to capture processing telemetry and monitor system bottlenecks; served as a technical expert conducting independent root-cause analysis following platform rollout friction to improve system usability and deliver data-driven process optimizations.
- **Regulatory Compliance & Public Service Governance:** Upheld strict compliance boundaries for external agency and psychiatric ER data exchanges; enforced HIPAA, PCI, and criminal justice agency data privacy standards, guiding staff through process changes to eliminate unauthorized disclosures while reducing clinical latency by 50%.
- **Cross-Functional Leadership & Effective Communication:** Elected 1199SEIU Union Delegate representing 300+ personnel; demonstrated effective communication and ability to collaborate across departments to translate frontline operational friction and software migration gaps into structured technical and business requirements for executive leadership.

- **Organizational Change, Staff Training & Teamwork:** Designed and delivered structured onboarding and continuous staff training; fostered teamwork and provided hands-on support to help non-technical users adapt to organizational change, navigate new business applications, and maintain high data entry standards in a high-impact public service setting.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility to make critical decision making choices and manage prioritization of competing requirements.
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Cross-Functional Project Coordination:** Served as primary point of accountability for end-to-end program and operational deployments; developed project plans, monitored timelines, organized cross-functional meetings, and managed dependencies across teams of up to 100+ personnel.
- **Enterprise Asset Management System & Inventory Tracking:** Managed tracking, maintenance logs, and deployment logistics for physical rental equipment and AV infrastructure across large-scale venue deployments, ensuring comprehensive asset management, 100% inventory accountability, and zero resource loss.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and prioritization of client needs under tight timelines.
- **Process Guidance & Technical Information Translation:** Guided international clients through complex regulatory documentation, administrative compliance frameworks, and operational filing requirements under tight deadlines, translating technical information into clear, actionable steps.

Technical Portfolio & Academic Projects

- *CI Project (Geospatial Advocacy and Predictive Analytics):* Engineered automated Python ingestion applications on Google Cloud Run for technology integration; built dbt transformation and database system configuration architecture compiling disparate datasets into a unified Kimball star schema.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed and debugged data-cleaning scripts via Pandas to map privacy-suppressed negative integers, troubleshoot anomalies, and isolate geographic variance.

- *PEX Project (Statistical NLP Pipeline)*: Architected machine learning workflows utilizing NLP and Python programming/scripting to cluster unstructured survey data, identify problems, and expose churn risks.
- *WHO Project (Healthcare Access System Architecture)*: Designing a serverless AWS (Lambda, S3) cloud framework to transition manual, high-friction referral workflows into an automated technology integration pipeline; programming Python scripting buses to offer solutions for real-time provider and transit data routing.

Education

Master of Science, Quantitative Methods and Modeling

GPA:

Baruch College, Zicklin School of Business, New York, NY

3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

GPA:

Francis Marion University, Florence, SC

3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
