Professional Summary

Business System Analyst holding a Master of Science in Quantitative Methods & Modeling from Baruch College, with 5+ years of experience in business process analysis, data analytics, enterprise application migrations, and requirements gathering. Proven track record auditing source-to-destination database structures, translating complex business needs into functional specifications, and engineering data telemetry models to optimize system usability. Dedicated to bridging the gap between frontline operational teams, vendors, and engineering leaders to drive business intelligence, scalable enterprise reporting, seamless UAT adoption, and system performance.

Core Competencies

- **Business Systems & Data Migration:** Enterprise Application & Data Migration, Systems Analysis, Source-to-Destination Database Auditing, System Configuration & Field Mapping, Post-Migration Incident Triage, Defect Tracking
- **Data Analytics & Business Intelligence:** Power BI Development (Data Modeling, DAX, Power Query), Advanced SQL Queries, Enterprise Reporting, Telemetry Systems & KPIs, Data Quality & Governance, ETL Processes
- **Business Analysis & Requirements:** Requirements Gathering (BRDs, User Stories, Functional Requirements, Technical Requirements), Business Process Analysis (BPA), Workflow Optimization, System Documentation, User Acceptance Testing (UAT)
- **Enterprise Platforms & Collaboration:** Epic, NextGen, SevenRooms, Tripleseat, HIPAA & Data Governance, Inventory & Asset Tracking, Cross-Functional Collaboration & Communication Skills

Professional Experience

Lead Patient Care Associate | Callen-Lorde | April 2021 – March 2026

- **Enterprise System & Data Migration:** Audited core database architecture for an 18,000-user ecosystem during a major platform and data migration (NextGen to Epic); validated source-to-destination field mapping, enforced data privacy standards, and ensured high database integrity across system records.
- **Incident Triage & Process Optimization:** Engineered a telemetry tracking system in Excel/Google Sheets to capture operational KPIs, performance metrics, and workflow bottlenecks; conducted root-cause analysis to resolve issues following platform rollouts and reduce processing latency by 50%.
- **Regulatory Compliance & Data Auditing:** Maintained strict data governance standards across external agency exchanges; enforced HIPAA and data security protocols while auditing cross-departmental documentation to prevent unauthorized disclosures.
- **Requirements Gathering & Stakeholder Liaison:** Served as elected 1199SEIU Union Delegate representing 300+ personnel; facilitated meetings between frontline staff and executive leadership, translating operational friction into structured Business Requirements Documents (BRDs), Functional Requirements, Technical Requirements, user stories, and system documentation.
- **UAT, Onboarding & User Adoption:** Designed and delivered structured technical onboarding and hands-on user training; facilitated User Acceptance Testing (UAT), defect tracking, and system documentation to guide non-technical staff through platform transitions and drive system adoption.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility to make critical decision making choices and manage prioritization of competing requirements.
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Cross-Functional Project Coordination:** Served as primary point of accountability for end-to-end program and operational deployments; developed project plans, monitored timelines, organized cross-functional meetings, and managed dependencies across teams of up to 100+ personnel.
- **Enterprise Asset Management System & Inventory Tracking:** Managed tracking, maintenance logs, and deployment logistics for physical rental equipment and AV infrastructure across large-scale venue deployments, ensuring comprehensive asset management, 100% inventory accountability, and zero resource loss.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and prioritization of client needs under tight timelines.
- **Process Guidance & Technical Information Translation:** Guided international clients through complex regulatory documentation, administrative compliance frameworks, and operational filing requirements under tight deadlines, translating technical information into clear, actionable steps.

Technical Portfolio & Academic Projects

- *CI Project (Geospatial Advocacy and Predictive Analytics):* Engineered automated Python ETL processes and ingestion applications on Google Cloud; built dbt data modeling and database system architecture compiling disparate datasets into a unified Kimball star schema for Google Data Studio (Looker Studio) and enterprise reporting solutions.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed and debugged data-cleaning scripts via Pandas to map privacy-suppressed negative integers, troubleshoot anomalies, and isolate geographic variance.
- *PEX Project (Statistical NLP Pipeline):* Architected machine learning workflows utilizing NLP and Python programming/scripting to cluster unstructured survey data, identify problems, and expose churn risks.
- *WHO Project (Healthcare Access System Architecture):* Designing a serverless AWS cloud framework for API integration and workflow automation; programming Python scripting buses to denormalize relational provider datasets into JSON feeds for real-time routing and business intelligence.

Education

Master of Science, Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:

3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

Francis Marion University, Florence, SC

GPA:

3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation
