Professional Summary

Business Systems Administrator holding a Master of Science in Quantitative Methods & Modeling from Baruch College, with 15 years of operational leadership and 5+ years of hands-on experience administering business systems, enterprise ERP management systems, and data infrastructure. Proven ability to prioritize complex workflows with sound judgment, written and verbal communication, and dependable reliability across cross-functional teams. Specializes in system configuration, automated data integrity verification, root-cause incident triage, REST APIs, and enterprise business intelligence reporting (Tableau, Data Studio, Plotly).

Core Competencies

- **Systems Administration & IT Governance:** Business Systems Administration, ERP Management Systems, System Configuration, User Provisioning & Active Directory Role Workflows, REST APIs & Middleware Integration, ITIL Service Framework Alignment, SLA Compliance
- **Data Analytics, Automation & BI:** Tableau, Google Data Studio (Looker Studio), Dash / Plotly (Python) (Translatable to Power BI), PowerShell & Python Scripting, Automated ETL Pipelines, Data Integrity & Governance, Advanced SQL Queries, Azure & AWS Cloud Platforms
- **Operations, Logistics & Asset Management:** Enterprise Asset Management Systems, Field Equipment Tracking & Logistics, Process Flow Automation, Written and Verbal Communication, Ability to Prioritize
- **Enterprise Platforms & Soft Skills:** Epic EHR, NextGen, SevenRooms, Tripleseat, ERP/CRM Administration, HIPAA & Data Privacy Standards, Dependable Reliability, Sound Judgment

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Enterprise System Administration & ERP Migration:** Navigated core software architecture and enterprise business systems for an 18,000-user ecosystem during an intensive NextGen-to-Epic ERP transition; audited source-to-destination field mapping, user provisioning access workflows, and database structures to ensure 100% data integrity.
- **Incident Triage & Process Automation:** Engineered automated telemetry tracking models in Excel/Google Sheets to monitor system bottlenecks and submitted comprehensive helpdesk tickets (IT, PAS, Patient Experience); earned management recognition for sound judgment and meticulous notes, reducing processing latency by 50%.
- **EHR Workflow Liaison & Technical Support:** Served as an informal Epic EHR operational liaison for multidisciplinary teams, including Therapists, Psychiatrists, and Admin Supervisors, demonstrating exceptional written and verbal communication while troubleshooting system configuration issues and role-specific UI variations.
- **Requirements Gathering & Dependable Execution:** Served as elected 1199SEIU Union Delegate representing 300+ personnel; demonstrated dependable reliability and ability to prioritize competing operational needs while translating system gaps into business requirements and functional specifications.
- **Technical Training & User Adoption:** Designed and delivered onboarding training to incoming staff on business systems navigation, data entry standards, and workflow automation to support consistent data integrity and operational efficiency.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data across 7 high-concurrency enterprise business systems and CRM/ERP management systems utilizing SevenRooms and Tripleseat platform architectures.
- **Data Integrity & Record Validation:** Maintained strict attention to detail to secure 100% data integrity and record deduplication accuracy across 300+ daily guest profiles within a shared global database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility and sound judgment under pressure.
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Enterprise Asset Management & Equipment Tracking:** Administered inventory management systems, maintenance logs, and venue deliveries for physical rental equipment and AV infrastructure, securing 100% data integrity and zero asset loss.
- **Production Execution & Frontline Staffing:** Directed field operations for core setups and major regional productions (e.g., Charleston Fashion Week), leveraging workflow automation, written and verbal communication, and dependable execution across teams of up to 100+ volunteer and support personnel.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and ability to prioritize client needs under tight timelines.
- **Cross-Cultural Regulatory Navigation:** Offered solutions to international clients by guiding them through complex US compliance documentation and tax requirements, utilizing deep business knowledge.

Technical Portfolio & Academic Projects

- *CI Project (Geospatial Analytics & Data Warehousing):* Built automated Python scripting and PowerShell ETL ingestion pipelines for REST APIs and cloud middleware on GCP/Azure; modeled Kimball star schemas for Google Data Studio (Looker Studio) and enterprise reporting.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed and debugged data-cleaning scripts via Pandas to map privacy-suppressed negative integers, troubleshoot anomalies, and isolate geographic variance.
- *PEX Project (Statistical NLP Pipeline):* Architected machine learning workflows utilizing NLP and Python programming/scripting to cluster unstructured survey data, identify problems, and expose churn risks.
- *WHO Project (Healthcare Access System Architecture):* Designing a serverless AWS (Lambda, S3) cloud framework to transition manual workflows into an automated REST API technology integration pipeline; programming Python scripting buses for real-time provider and transit data routing.

Education

Master of Science, Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:

3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

Francis Marion University, Florence, SC

GPA:

3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation
