Professional Summary

Healthcare Operations Architect & Code-Literate Technical Advocate with 15 years of experience bridging clinical workflows, enterprise software platforms, and cross-functional software teams to elevate the overall customer experience. Proven track record auditing complex EHR integrations across an 18,000-user ecosystem, resolving platform friction, and translating customer feedback into actionable technical requirements for product and engineering partners. Combines a Master of Science in Quantitative Methods and Modeling with code literacy (Python, SQL, API architectures, agentic script building) to troubleshoot system bottlenecks and optimize revenue cycle data flows. Skilled at owning high-value account relationships, driving customer retention, and executing measurable process improvement projects across technology platforms.

Core Competencies

- **Customer Success & Relationship Management:** B2B Portfolio Retention & Growth, Account Health Telemetry, Customer Experience (CX), Risk Mitigation, SLA Compliance
- **Healthcare Technology & RCM Operations:** EHR/Intake System Configuration, Demographic & Coverage Data Integrity, Revenue Cycle Management (RCM) Workflows, Process Latency Reduction
- **Code Literacy & Technical Translation:** Python & SQL Scripting, Agentic Tooling, API Payload & Log Inspection, Technical Requirements Gathering, Product & Engineering Liaison
- **Technical & Data Tools:** Advanced Microsoft Excel (Power Query, Telemetry Modeling), Salesforce/CRM Data Logic, Database Record Deduplication, Cloud Warehousing Concepts

Professional Experience

Lead Patient Care Associate (Healthcare Operations & Systems Implementation) | Callen-Lorde | April 2021 – March 2026

- **Enterprise Migration & Data Auditing:** Navigated core software architecture for an 18,000-user ecosystem during an intensive NextGen-to-Epic transition; audited source-to-destination field mapping and managed data collection to preserve critical Electronic Health Record (EHR) demographic layers using advanced analytical skills.
- **Incident Management & Root-Cause Diagnosis:** Engineered a manual tracking system in Google Sheets to capture processing telemetry and monitor system bottlenecks; conducted troubleshooting and root-cause analysis to mitigate operational risk and resolve revenue cycle management bottlenecks for a new pilot division.
- **Technical Translation & Playbook Development:** Reduced front-end process latency by 50% by auditing system configuration shortfalls; translated frontline operational friction into structured technical feedback and payload observations to inform formal support playbooks and engineering roadmaps.
- **Cross-Functional Leadership & Governance:** Elected 1199SEIU Union Delegate representing 300+ personnel; built strong relationships and acted with compassion to translate frontline operational friction into customer requirements through continuous cross-group collaboration with executive leadership.
- **Training & Onboarding:** Designed and delivered onboarding training and written communication playbooks via Slack and LMS tools to support incoming staff, alignment on customer needs, and ongoing customer support.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility to make critical decision making choices and manage prioritization of competing requirements.

- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Project Execution & SLA Tracking:** Served as primary owner for end-to-end client portfolio deliverables across teams of up to 100+ personnel, consistently meeting SLA deadlines, performance standards, and account retention goals.
- **Fiscal Stewardship & Resource Management:** Managed localized project budgets, vendor billing logs, and performance trends to ensure zero deficit across cross-functional program deployments.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and prioritization of client needs under tight timelines.
- **Cross-Cultural Regulatory Navigation:** Offered solutions to international clients by guiding them through complex US compliance documentation and tax requirements, utilizing deep business knowledge.

Technical Portfolio & Academic Projects

- **CI Project (Geospatial Advocacy and Predictive Analytics):** Engineered automated Python ingestion applications on Google Cloud Run for technology integration; built dbt transformation and database system configuration architecture compiling disparate datasets into a unified Kimball star schema.
- **SDOH Project (Epidemiological Analytics Engine):** Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed and debugged data-cleaning scripts via Pandas to map privacy-suppressed negative integers, troubleshoot anomalies, and isolate geographic variance.
- **PEX Project (Statistical NLP Pipeline):** Architected machine learning workflows utilizing NLP and Python programming/scripting to cluster unstructured survey data, identify evolving customer needs, drive customer retention, and expose churn risks.
- **WHO Project (Healthcare Access & Intake Architecture):** Designing a serverless AWS/Python cloud framework to automate manual referral routing; conceptualized a dual-sided data integration bus matching patient credentials and transit logistics with provider network status and insurance databases.

Education

Master of Science, Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

Francis Marion University, Florence, SC

Graduated cum laude with University Honors | Dean's List | President's List

GPA:

3.525

GPA:

3.633

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation
