

Professional Summary

Detail-oriented Data Analyst with 15 years of experience in data quality auditing and quality control, system navigation, and process improvement across 18,000-patient healthcare ecosystems and 100+ person decentralized teams. Experienced in manual and digital tracking systems, data validation, and cross-functional coordination. MS in Quantitative Methods & Modeling, Baruch College. Seeking to apply data integrity and process optimization skills to support Clackamas County's Transportation Maintenance operations.

Core Competencies

Data Engineering & Analytics

- ETL/ELT Pipeline Architecture
- Kimball Dimensional Modeling
- Cloud Data Warehousing (GCP, BigQuery)
- Python / SQL / dbt / Alteryx
- Database Design & Management
- Digital Records Management (SharePoint, EHR)

Operations & Governance

- Root-Cause & Anomaly Diagnosis
- SLA Compliance & Incident Triage
- Technical Documentation & Runbooks
- Data Quality Control & Governance
- Workflow Automation & Optimization
- Budget Management & Financial Reporting
- Compliance & Regulatory Navigation
- Asset Management & Tracking

Stakeholder Leadership

- Cross-Functional Coordination
- Executive-Level Briefings
- Union/Labor Governance (300+ Personnel)
- Multi-Stakeholder Coalition Mobilization
- Cross-Cultural & Regulatory Navigation
- Advisory & Strategic Briefings

Professional Experience

Senior Program & Operations Lead | Del Monsoon | 2010 – 2020

- **Project Execution & Team Mobilization:** Served as primary point of accountability for end-to-end project execution, coordinating complex operational dependencies and mobilizing teams of up to 100+ personnel across decentralized environments.
- **Fiscal Stewardship & Vendor Management:** Managed project budgets, invoicing, and vendor logistics; supported a fundraising event that generated \$60K+ in revenue.
- **Coalition Building & Advocacy:** Mobilized regional community coalitions and public-sector advocacy networks to support organizational goals.

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | 2021 – 2026

- **Enterprise System Migration & Data Auditing:** Navigated core architecture for an 18,000-user ecosystem during an intensive NextGen-to-Epic software transition; audited source-to-destination field mapping and managed database data quality to preserve critical demographic layers.
- **Incident Management & Root-Cause Analysis:** Engineered a manual tracking system in Google Sheets to capture capacity telemetry and monitor processing bottlenecks; conducted root-cause analysis that isolated an unflagged hardware-level capacity constraint, scaling a new pilot division to guarantee same-day resolution of data routing failures.

- **Workflow Optimization & System Navigation:** Developed deep expertise in system navigation through intensive, hands-on problem-solving, reducing front-end issue resolution latency by 50% (from 40 to 20 minutes) through personal mastery of platform architecture and workflow logic. Shared resources and navigation strategies with team members to support broader adoption; contributed heavily to the development of localized process runbooks and workflow documentation, providing the structural requirements and operational insights that informed formal playbooks while respecting union/management boundaries.
- **Patient Registration & Data Stewardship:** Registered patients into the healthcare system and into specialized programs; regularly updated patient demographics and contact information to maintain accurate records within the Electronic Health Record (EHR) platform.
- **Cross-Functional Leadership & Labor Governance:** Heavily consulted by management as the Behavioral Health subject-matter expert to translate operational friction into structural requirements; elected 1199SEIU Union Delegate representing 300+ personnel, navigating contract negotiations directly with executive leadership.
- **Training & Onboarding:** Designed and delivered training to incoming staff on system navigation, data entry standards, and workflow documentation; developed resources and runbooks to support consistent data quality and operational efficiency.

Server & F&B Reservation Agent | The Standard Hotels & ABCV | 2015 – 2021

- **Multi-Venue Data Coordination:** Orchestrated high-volume operational data and customer logic across 7 NYC-based venues using SevenRooms and Tripleseat; managed 300+ daily guest profiles with 100% record validation accuracy within a shared global CRM.
- **High-Concurrency Service Logistics:** Maintained complete ownership of service logistics for 11 concurrent tables (22–44 patrons) during peak demand; applied real-time resource routing and critical thinking to deliver exceptional service under high-stress conditions.
- **Contract & Event Fulfillment:** Facilitated small-scale event contracts and procurement; ensured 100% accuracy in contract fulfillment and client expectations for localized revenue streams.
- **Data Integrity & Record Validation:** Safeguarded high-fidelity record validation and maintained proper data entry standards across multiple venues and customer touchpoints.

FREELANCE & INDEPENDENT WORK | 2011 – 2020

Personal Assistant & Project Manager | Independent Contractor

- **International Logistics & Travel Coordination:** Orchestrated international travel logistics, including visa processing and vaccination documentation, for clients traveling locally and abroad.
- **Cross-Cultural Regulatory Navigation:** Aided foreign clients in understanding and filing US documentation and taxes, demonstrating cross-cultural communication and regulatory navigation skills.
- **Calendar Management & Project Coordination:** Managed personal and business calendars, coordinated communications between project teams, and facilitated event production.

Technical Portfolio & Academic Projects

- *CIP Project (Geospatial Advocacy & Predictive Modeling):* Engineered automated Python ingestion applications on Google Cloud Run; built dbt transformation architecture compiling disparate raw datasets into a unified Kimball star schema with conformed shared dimensions.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health outcomes across 141 NYC ZIP codes; programmed data-cleaning logic to map privacy-suppressed negative integers and isolate geographic variance.

William Preston Leslie II (Preferred: Preston Carey Leslie)

843-694-6959 | prestoncarey90@gmail.com | prestoncarey90.github.io/portfolio/ | linkedin.com/in/preston-leslie

- *PEX Project (Statistical NLP Pipeline)*: Architecting unsupervised machine learning workflows utilizing NLP (TF-IDF, KMeans clustering) to cluster unstructured feedback data and expose churn risks.
- *WHO Project (Healthcare Access Routing Engine)*: Mapping legacy architecture to serverless AWS (Lambda, S3) to support automated data routing; designing Python data buses for REST API integration.

Education

Master of Science, Quantitative Methods and Modeling

GPA:

Baruch College, Zicklin School of Business, New York, NY

3.525

Relevant Coursework:

Data Warehousing & Analytics | Simulation Modeling & Analysis | Modern Regression Analysis | Data Visualization | Data Mining for Business Analytics | Principles of Database Management | Programming for Analytics | Corporate Finance | Investment Analysis

Bachelor of Arts, French (minor: Art History)

GPA:

Francis Marion University, Florence, SC

3.633

Graduated cum laude with University Honors | Dean's List (Fall 2008, Fall 2012) | President's List (Fall 2009, Spring 2011, Spring 2012) | LIFE Scholarship Recipient

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Certified DELF A1/A2

Université de Caen Basse-Normandie

Certified COVID-19 Contact Tracer

Johns Hopkins University (Coursera)

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
