

Preston Carey Leslie

Enterprise Customer Success Manager | Technical Advisor | MS, Quantitative Methods & Modeling
New York, NY | Target Markets: Portland, OR | Seattle, WA (June 2026)

prestoncarey90@gmail.com
843.694.6959

Mission

High-impact Customer Success professional and Quantitative Analyst specializing in enterprise account health, data-driven value realization, and complex workflow translation. Proven track record navigating high-concurrency environments, isolating operational performance outliers, and transforming technical platform metrics into clear business value to maximize retention and drive long-term client loyalty.

Education

Master of Science in Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

Relevant Coursework Highlights:

Data Warehousing and Analytics | Simulation Modeling & Analysis | Modern Regression Analysis |
Corporate Finance | Investment Analysis | Data Visualization | Data Mining for Business Analytics |
Principles of Database Management | Programming for Analytics.

GPA:

3.525

Bachelor of Arts in French, minor in Art History

Francis Marion University, Florence, SC

GPA:

3.633

Technical Skills

Programming & Scripting: SQL (Databricks SQL, PostgreSQL), Python (Data Mining, Data Wrangling, ELT), R (Regression Modeling, ANOVA), Regular Expressions (Regex text extraction), API Logic, Schema Mapping

Data Environments & Governance: Electronic Health Records (Epic, NextGen), Real World Data (RWD) Management, Data Governance (HIPAA/PHI Protection)

Enterprise CS Methodologies: Return on investment (ROI) Tracking, Executive Business Reviews (QBRs), Product Adoption Strategies, Customer Experience (CX) Optimization, Cross-Functional Technical Translation

Data Literacy & Architecture Logic: Technical Workflow Auditing, SQL Datasets, Python Analytical Modeling, Schema Mapping Logic, Data Quality Governance (PII Protection)

Development & Environment Tools: Git/GitHub, Windows, Continuous Deployment (CI/CD) pipelines, AI-Augmented Development (GitHub Copilot, Advanced LLM Prompt Engineering, Agentic Workflow Prototyping)

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | 2021–2026

- **Enterprise EHR Data Quality Auditing:** Audited operational baselines and frontline data quality during an enterprise-wide Epic EMR platform migration for an 18,000-patient ecosystem; translated complex friction into comprehensive technical documentation and system requirements for database engineers.
- **Operational Efficiency:** Improved resolution speed for complex patient-provider data conflicts by over 50%, leveraging expert system navigation to reduce average handling time from 45 to 20 minutes.
- **Systemic Stabilization & Workflow Auditing:** Resolved 10–20 high-friction daily conflicts rooted in systemic institutional healthcare infrastructure failures. Designed an empirical tracking pipeline to capture operational telemetry, successfully isolating an unflagged telephonic routing capacity threshold to optimize communication workflows and protect frontline data integrity.
- **Systemic Stabilization & Asset Reporting:** Resolved 10-20 high-friction configuration conflicts daily. Engineered an ad-hoc tracking pipeline in Google Sheets to capture hardware capacity telemetry and asset KPIs, isolating an un-flagged telephonic routing failure and saving 50% in triage times.
- **Project Delivery & Issue Resolution:** Conducted rigorous compliance audits of user provisioning and permissions logic during a major system transformation; served as a primary cross-functional liaison to synthesize stakeholder feedback, map systemic friction points, and implement operational workarounds to prevent service delivery gaps.

Event Coordinator, F&B Reservation Agent, and Server | The Standard Hotel & ABCV | 2015-2021

- **Synchronized Multi-Platform Logic:** Independently orchestrated high-volume operational data and customer logic for 7 NYC-based venues across 2 flagship hotels utilizing SevenRooms and Triplesat.
- **Validated Enterprise Database Integrity:** Safeguarded high-fidelity record validation within a shared global CRM database, ensuring local data accuracy for 300+ daily guest interactions.
- **Negotiated Fiscal Stewardship:** Facilitated small-scale event contracts and procurement; ensured 100% accuracy in contract fulfillment and client expectations for localized revenue streams.
- **Spearheaded High-Concurrency Performance (ABCV):** Ownership of breakfast service for 11 concurrent tables (22–44 patrons) during peak demand; applied real-time resource routing and cross-functional teamwork to maintain service excellence in a high-stress environment.

Senior Program & Account Lead | Del Monsoon | 2010–2019

- **Business Operations & Project Delivery:** Served as primary point of accountability for end-to-end execution, managing complex dependencies, performing ad-hoc data analysis, and scaling teams to 100+ personnel.
- **Fiscal Stewardship & Procurement:** Managed project spend, invoicing, and vendor logistics, identifying organic growth opportunities that generated \$60K+ in new-business streams.
- **CRM & Stakeholder Management:** Mobilized regional community coalitions and public-sector advocacy networks to procure localized event pipelines; leveraged platform metrics to evaluate operational program effectiveness and drive community-based data decisions.

Technical Portfolio & Active Architecture

PEX Project (Operational Evaluation: Statistical NLP Pipeline) | 2026

- **Methodological Design:** Scoping an automated, repeatable Statistical NLP workflow utilizing Python, TF-IDF feature extraction, and KMeans clustering to evaluate high-volume, unstructured stakeholder survey data.
- **Reproducible Analytics:** Establishing fixed mathematical parameters to dynamically categorize qualitative feedback into actionable operational insights, replacing manual data tallying with highly scalable, reproducible text analytics.

WHO Project (System Architecture & Workflow Evaluation: Healthcare Access Routing Engine) | 2026

- **Technical Scoping & Optimization:** Evaluated initial data warehouse architecture against front-line stakeholder latency needs, successfully pivoting the project scope to a serverless AWS (S3/Lambda) model to optimize real-time application performance.
- **Implementation & Pipeline Engineering:** Architecting a Python-based data bus to ingest, process, and normalize disparate API endpoints; executed advanced data mapping, schema validation testing, and data profiling to combine geospatial and temporal metrics.
- **Operational Validation:** Partnering directly with clinical teams to validate assumptions and problem statements, ensuring the proposed automation logic accurately mitigates systemic barriers in behavioral health referrals.

Quantitative Methods & Academic Projects

CIP Project (Geospatial Advocacy & Predictive Modeling) | 2026

- **Serverless ELT Architecture:** Engineered automated Python ingestion applications deployed on Google Cloud Run to stream high-volume municipal datasets via the Socrata API directly into Google BigQuery.
- **Dynamic Schema Validation:** Implemented custom data normalization routines, multi-field deduplication (QUALIFY ROW_NUMBER()), and automated schema mutation logic to handle streaming JSON variables without breaking downstream tables.
- **Kimball Dimensional Modeling:** Developed a dbt transformation architecture compiling disparate raw datasets into a unified star schema with conformed shared dimensions (dim_shared_date, dim_shared_geography) and multi-fact table tracking.

SDOH Project (Epidemiological & Social Determinants of Health Analytics Engine) | 2026

- **Multi-Layer Data Integration:** Engineered an analytical script to clean, merge, and evaluate multi-sheet municipal public health data matrices (Prevalence, Care Linkage, Viral Suppression) alongside Social Determinants of Health (SDOH) indicators across 141 conformed ZIP code zones.
- **Statistical Stability Auditing:** Programmed data-cleaning logic to isolate and map privacy-suppressed negative integers to null spaces, executing programmatic diagnostic sweeps across 10 distinct rate-stability vectors to evaluate data degradation and historical reporting risks.
- **Geographic Variance Profiling:** Executed comprehensive multi-variable correlation matrices and Poisson regression modeling with exact p-value mapping and Z-score spread models to rank descriptive geographic and demographic variations across high-risk intersectional sub-populations.

Additional Skills & Certifications

Alteryx Designer Core Certification

Alteryx

Certified TESLA Instructor (Providing Training, Instructional Design, and Adult Education)

Literacy Assistance Center Academy, New York, NY

Certified DELF A1/A2

Université de Caen Basse-Normandie, Caen, France

Certified COVID-19 Contact Tracer

Johns Hopkins University, Coursera.org

Community Leadership

Co-Founder & Event Producer | Queer Roots Cinema | 2021–Present

Co-founded and lead end-to-end production for a 30-member intergenerational community program, facilitating inclusive discussion and event logic.

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
