

Preston Carey Leslie

Program Analyst & Evaluation Specialist | Mixed-Methods & Public Health Analytics | MS, Quantitative Methods & Modeling
843.694.6959 | prestoncarey90@gmail.com | prestoncarey90.github.io/portfolio | linkedin.com/in/preston-leslie/
New York, NY | Target Markets: Portland, OR & Seattle, WA

Mission

Product-minded Program Analyst specializing in mixed-methods data collection, public health program evaluation, and epidemiological data tracking. Proven capability bridging the gap between frontline community health, quantitative social sciences, and research-driven policy teams to advance equitable health outcomes.

Education

Master of Science in Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:
3.525

Relevant Coursework Highlights:

Data Warehousing and Analytics | Simulation Modeling & Analysis | Modern Regression Analysis |
Corporate Finance | Investment Analysis | Data Visualization | Data Mining for Business Analytics
| Principles of Database Management | Programming for Analytics.

Bachelor of Arts in French, minor in Art History

Francis Marion University, Florence, SC

GPA:
3.633

Technical Skills

Programming & Scripting: Python (Data Mining, ELT, Complex Visualization), R (Multiple Linear Regression, Stepwise Optimization, ANOVA), SQL (PostgreSQL/pgAdmin, MySQL), YAML, Agile Frameworks (Scrum/Kanban/SAFe), API Logic, Schema Mapping

Visualization & Analytics Modeling: Advanced Excel (Analytic Solver, Complex Data Modeling, Trend Reporting), Advanced Excel, Tableau, Plotly, Google Data Studio; Exposure to Mixed-Methods Frameworks (Programmatic Text Analytics analogous to ATLAS.ti, Secure Data Collection Logic analogous to REDCap)

System Architecture & SaaS Governance: Data Governance (HIPAA, PHI/PII Protection), Standard Operating Procedures (SOPs), Data Dictionaries, Alteryx (Designer Core Certified), dbt (Data Build Tool), BigQuery; engineered automated pipelines to ensure 100% data integrity for public-sector reporting

Development & Environment Tools: Git/GitHub, Windows, Continuous Deployment (CI/CD) pipelines, AI-Augmented Development (GitHub Copilot, Advanced LLM Prompt Engineering, Agentic Workflow Prototyping)

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | 2021–2026

- **Enterprise Program Auditing & Stakeholder Management:** Audited operational baselines and front-line data fidelity during an enterprise-wide Epic migration; formally commended by leadership for translating complex frontline user friction and behavioral data into highly objective, fact-driven system requirements for HIT database teams.
 - **Systems Triage & Capacity Modeling:** Engineered an ad-hoc tracking infrastructure in Google Sheets to capture frontline capacity metrics during a rapid provider expansion. Isolated a critical 99-voicemail hardware capacity ceiling causing automated telephonic routing failures, utilizing empirical data to justify and launch a dedicated pilot call center while simultaneously reducing data conflict resolution times by 50%.
 - **Systemic Stabilization & Triage:** Resolved 10–20 high-friction systemic issues daily, specifically bridging navigation gaps for trans and nonbinary individuals to ensure equitable access to care.
 - **Labor Governance & Inter-Jurisdictional Liaison:** Elected 1199SEIU Union Delegate representing 300+ personnel within a high-concurrency collective bargaining environment. Partnered directly with executive leadership to resolve complex grievances, interpret collective bargaining agreements (CBAs), and align workplace policies with rigid public health and civil compliance frameworks.
 - **Project Delivery & Issue Resolution:** Conducted rigorous compliance audits of user provisioning and permissions logic during a major system transformation; served as a primary cross-functional liaison to synthesize stakeholder feedback, map systemic friction points, and implement operational workarounds to prevent service delivery gaps.
 - **Operational Framework Design & Stakeholder Alignment:** Independently designed and proposed an extensive operational framework integrating multi-facility resource tracking with institutional sustainability metrics. Scaled a cross-functional coalition by securing formal project buy-in from the Sustainability Officer and Site Director; presented the completed system architecture and resource projections directly to the Chief Operating Officer to evaluate capital feasibility and resource allocations.
-

Event Coordinator, F&B Reservation Agent, and Server | The Standard Hotel & ABCV | 2015-2021

- **Synchronized Multi-Platform Logic:** Independently orchestrated high-volume operational data and customer logic for 7 NYC-based venues across 2 flagship hotels utilizing SevenRooms and Tripleseat.
- **Validated Enterprise Database Integrity:** Safeguarded high-fidelity record validation within a shared global CRM database, ensuring local data accuracy for 300+ daily guest interactions.
- **Negotiated Fiscal Stewardship:** Facilitated small-scale event contracts and procurement; ensured 100% accuracy in contract fulfillment and client expectations for localized revenue streams.
- **Spearheaded High-Concurrency Performance (ABCV):** Ownership of breakfast service for 11 concurrent tables (22–44 patrons) during peak demand; applied real-time resource routing and cross-functional teamwork to maintain service excellence in a high-stress environment.

Senior Program & Account Lead | Del Monsoon | 2010–2019

- **Program & Project Delivery:** Served as primary point of accountability for end-to-end program execution, managing complex operational dependencies and scaling project teams from a 2-person nucleus to 100+ cross-functional personnel.
- **Fiscal Stewardship & Procurement:** Managed project spend, invoicing, and vendor logistics, identifying organic growth opportunities that generated \$60K+ in new-business streams.
- **CRM & Stakeholder Management:** Mobilized regional community coalitions and public-sector advocacy networks to procure localized event pipelines; leveraged platform metrics to evaluate operational program effectiveness and drive community-based data decisions.

Technical Portfolio & Active Architecture

PEX Project (Operational Evaluation: Statistical NLP Pipeline) | 2026

- **Methodological Design:** Scoping an automated, repeatable Statistical NLP workflow utilizing Python, TF-IDF feature extraction, and KMeans clustering to evaluate high-volume, unstructured stakeholder survey data.
- **Reproducible Analytics:** Establishing fixed mathematical parameters to dynamically categorize qualitative feedback into actionable operational insights, replacing manual data tallying with highly scalable, reproducible text analytics.

WHO Project (System Architecture & Workflow Evaluation: Healthcare Access Routing Engine) | 2026

- **Technical Scoping & Optimization:** Evaluated initial data warehouse architecture against front-line stakeholder latency needs, successfully pivoting the project scope to a serverless AWS (S3/Lambda) model to optimize real-time application performance.
- **Implementation & Pipeline Engineering:** Architecting a Python-based data bus to ingest, process, and normalize disparate API endpoints; designed explicit data transfer setup metrics and schema validation tests to combine geospatial and temporal system data into a unified engine.
- **Operational Validation:** Partnering directly with clinical teams to validate assumptions and problem statements, ensuring the proposed automation logic accurately mitigates systemic barriers in behavioral health referrals.

Quantitative Methods & Academic Projects

CIP Project (Geospatial Advocacy & Predictive Modeling) | 2026

- **Serverless ELT Architecture:** Engineered automated Python ingestion applications deployed on Google Cloud Run to stream high-volume municipal datasets via the Socrata API directly into Google BigQuery.
- **Dynamic Schema Validation:** Implemented custom data normalization routines, multi-field deduplication (QUALIFY ROW_NUMBER()), and automated schema mutation logic to handle streaming JSON variables without breaking downstream tables.
- **Kimball Dimensional Modeling:** Developed a dbt transformation architecture compiling disparate raw datasets into a unified star schema with conformed shared dimensions (dim_shared_date, dim_shared_geography) and multi-fact table tracking.

SDOH Project (Epidemiological & Social Determinants of Health Analytics Engine) | 2026

- **Multi-Layer Data Integration:** Engineered an analytical script to clean, merge, and evaluate multi-sheet municipal public health data matrices (Prevalence, Care Linkage, Viral Suppression) alongside Social Determinants of Health (SDOH) indicators across 141 conformed ZIP code zones.
 - **Statistical Stability Auditing:** Programmed data-cleaning logic to isolate and map privacy-suppressed negative integers to null spaces, executing programmatic diagnostic sweeps across 10 distinct rate-stability vectors to evaluate data degradation and historical reporting risks.
 - **Geographic Variance Profiling:** Executed comprehensive multi-variable correlation matrices and Poisson regression modeling with exact p-value mapping and Z-score spread models to rank descriptive geographic and demographic variations across high-risk intersectional sub-populations.
-

Core Public Sector Competencies

Public Program Evaluation: Competent in tracking, mining, and cleaning complex public sector data matrices to evaluate program efficiency, measure performance benchmarks, and optimize resource routing.

Inter-Jurisdictional Collaboration: Proven capability acting as a primary liaison between frontline operational staff, administrative directors, labor organizations, and executive-level public stakeholders to build operational consensus.

Data-Driven Fiscal Stewardship: Experienced in reviewing vendor logistics, auditing user logic configurations, and verifying database integrity to safeguard localized public revenue streams and capital deployments.

Equity & Antiracist Operational Governance: Demonstrated commitment to advancing diversity, equity, inclusion, and belonging (DEIB) frameworks by actively mitigating systemic navigation barriers for marginalized populations in high-concurrency environments.

Enterprise Systems Triage: Specialization in stepping into ambiguous, high-friction operational environments to design technical workarounds, author system documentation, and train personnel on modern software workflows.

Additional Skills & Certifications

Alteryx Designer Core Certification

Alteryx

Certified Teaching English as a Second or Foreign Language/ESL Language Instructor

Literacy Assistance Center Academy, New York, NY

Certified DELF A1/A2

Université de Caen Basse-Normandie, Caen, France

Certified COVID-19 Contact Tracer

Johns Hopkins University, Coursera.org

Community Leadership

Co-Founder & Event Producer | Queer Roots Cinema | 2021–Present

Co-founded and lead end-to-end production for a 30-member intergenerational community program, facilitating inclusive discussion and event logic.

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
