prestoncarey90.github.io/portfolio

Mission

Highly analytical and value-driven Senior Customer Success Manager specializing in account strategy, application monetization analytics, and cross-functional environment triage. Combines an MS background in quantitative methods and advanced data manipulation with a 15-year foundation in high-concurrency client relationship environments. Proven capability interpreting complex usage data to isolate account risks, optimize user retention lifecycles, and transform repeated customer friction into reusable playbooks and scalable educational assets.

Education

Master of Science in Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:
3.525

Relevant Coursework Highlights:

Data Warehousing and Analytics | Simulation Modeling & Analysis | Modern Regression Analysis |
Corporate Finance | Investment Analysis | Data Visualization | Data Mining for Business Analytics |
Principles of Database Management | Programming for Analytics.

Bachelor of Arts in French, minor in Art History

Francis Marion University, Florence, SC

GPA:
3.633

Technical Skills

Go-To-Market (GTM) Account Strategy: Customer Context Mapping, Pricing & Monetization Strategy, Application Growth Lifecycle, Account Planning, Product Adoption, Churn Mitigation, Executive Stakeholder Alignment, LTV Optimization

Product Telemetry & Data Fluency: Product Usage Interpretation, Metric-Driven Business Reviews, Customer Insights, User Acquisition Analytics, SQL Querying (Databricks SQL, PostgreSQL), Python Data Wrangling, Runbook & Playbook Scaling

Cross-Functional Orchestration & Triage: Strategic Engineering Integration, API & Webhook Data Logic, Requirements Elicitation, CRM (Salesforce), Developer Tools, Async Collaboration (Slack / Zoom / Google Docs)

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Customer Relationships & Environment Migration:** Navigated core platform architecture for an 18,000-user ecosystem during an intensive software transition; mapped front-end constraints and audited data quality to align with customer needs, driving product adoption and clear technical context.
- **Usage Telemetry & Incident Mitigation:** Deployed data-driven problem-solving to troubleshoot systemic configuration risks; engineered tracking pipelines to monitor performance metrics and capture capacity telemetry under pressure. Conducted root cause analysis to isolate an unflagged, infrastructure-level capacity ceiling causing critical routing failures, scaling a new service division to secure timely resolution.
- **Cross-Functional Coordination & Scaling Leverage:** Heavily consulted by management as the division subject matter expert to translate repeated platform friction into structural requirements; authored localized process playbooks and workflow runbooks that reduced issue resolution latency by 50% and flattened task turnaround bottlenecks from seven days down to 48 hours.
- **Labor Governance & Stakeholder Dialogue:** Elected 1199SEIU Union Delegate representing 300+ personnel within a high-concurrency collective bargaining environment. Partnered directly with senior management and executive leadership to interpret collective bargaining agreements, resolve workplace grievances, and maintain operational stability.

Event Coordinator, F&B Reservation Agent, and Server | The Standard Hotels & ABCV | December 2010 – January 2020

- **Account Management & Customer Coordination (The Standard Hotels):** Coordinated high-value customer relationships, event contracts, and client preferences across 7 venues using SevenRooms and Tripleseat; managed customer calls and verified selections to maintain data accuracy for 300+ daily profiles.
- **High-Concurrency Service Execution (ABCV):** Maintained complete ownership of breakfast service for 11 concurrent tables (22–44 patrons) simultaneously during peak demand; applied rapid resource prioritizing, critical thinking, and collaborative teamwork to deliver exceptional service under intense pressure.

Senior Program & Account Lead | Del Monsoon | March 2021 – June 2026

- **Business Operations & Value Proposition Delivery:** Served as primary point of accountability for end-to-end execution, managing complex dependencies, tracking customer goals, performing ad-hoc data analysis, and scaling teams to 100+ personnel.
- **Fiscal Stewardship & Procurement:** Managed project spend, invoicing, and vendor logistics, identifying organic growth opportunities that generated \$60K+ in new-business streams.
- **Relationship Management & Delivery:** Mobilized regional coalitions using strong prioritization skills; deployed advanced written and verbal communication to deliver executive presentations and data-driven reports to scale impact.

Technical Portfolio & Active Architecture

PEX Project (Operational Evaluation: Statistical NLP Pipeline) | 2026

- **Retention & Experiments Modeling:** Collaborating with leadership to engineer an automated text-analytics pipeline; architecting unsupervised machine learning workflows utilizing NLP to cluster feedback data, conducting optimization experiments to expose churn risks.
- **Workflow Mapping:** Designing a programmatic pipeline concept utilizing TF-IDF feature extraction and unsupervised KMeans clustering to group unstructured free-text survey feedback into interpretable service themes.

WHO Project (System Architecture & Workflow Evaluation: Healthcare Access Routing Engine) | 2026

- **Product-Fluent Infrastructure Scoping:** Evaluating legacy application data architecture constraints against user interaction latency requirements; mapping a successful pivot to a serverless AWS infrastructure framework (Lambda, S3) to support automated data routing and real-time query optimization.
- **REST API Data Prototyping & Staging:** Designing a local Python data bus concept aligned with modern software development processes to clean and interpret data from complex REST APIs for future integration testing across staging environments
- **Pipeline Validation & Quality Assurance:** Partnering directly with clinical teams to validate system logic and problem statements, ensuring the proposed automated data routing models eliminate systemic process friction and run consistently.

Quantitative Methods & Academic Projects

CIP Project (Geospatial Advocacy & Predictive Modeling) | 2026

- **Data Engineering & Automated Pipelines:** Engineered automated Python extraction and ingestion applications deployed on Google Cloud Run to systematically stream high-volume municipal datasets via the Socrata API directly into a cloud data warehouse.
- **Dynamic Schema Validation:** Implemented custom data normalization routines, multi-field deduplication (QUALIFY ROW_NUMBER()), and automated schema mutation logic to handle streaming JSON variables without breaking downstream tables.
- **Data Engineering & Dimensional Modeling:** Developed a dbt transformation architecture managed via the dbt Cloud platform to compile disparate raw datasets into a unified Kimball star schema with conformed shared dimensions and multi-fact table tracking.

SDOH Project (Epidemiological & Social Determinants of Health Analytics Engine) | 2026

- **Multi-Layer Data Integration:** Engineered an analytical script to clean, merge, and evaluate multi-sheet municipal public health data matrices (Prevalence, Care Linkage, Viral Suppression) alongside Social Determinants of Health (SDOH) indicators across 141 conformed ZIP code zones.
- **Statistical Stability Auditing:** Programmed data-cleaning logic to isolate and map privacy-suppressed negative integers to null spaces, executing programmatic diagnostic sweeps across 10 distinct rate-stability vectors to evaluate data degradation and historical reporting risks.
- **Geographic Variance Profiling:** Executed comprehensive multi-variable correlation matrices and Poisson regression modeling with exact p-value mapping and Z-score spread models to rank descriptive geographic and demographic variations across high-risk intersectional sub-populations.

Additional Skills & Certifications

Alteryx Designer Core Certification

Alteryx

Certified TESLA Instructor (Providing Training, Instructional Design, and Adult Education)

Literacy Assistance Center Academy, New York, NY

Certified DELF A1/A2

Université de Caen Basse-Normandie, Caen, France

Certified COVID-19 Contact Tracer

Johns Hopkins University, Coursera.org

Community Leadership

Co-Founder & Event Producer | Queer Roots Cinema | 2021–Present

Co-founded and lead end-to-end production for a 30-member intergenerational community program, facilitating inclusive discussion and event logic.

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
