Professional Summary

Agentic AI Solutions Engineer & Technical Architect with 15 years of healthcare experience managing complex system constraints, data integration workflows, and enterprise platform architecture. Specializes in technical discovery, solutions architecture, and digital health platform migrations (NextGen to Epic) across complex healthcare operations. Leverages a Baruch M.S. in Quantitative Methods and Modeling paired with hands-on Python/SQL data architecture to bridge artificial intelligence tools and solve persistent patient communication gaps.

Core Competencies

- **Solutions Engineering & Interoperability:** Technical Discovery & Requirements Analysis, Solutions Architecture & Technical Architecture, Healthcare Operations & Digital Health, EHR System Integration (Epic, NextGen), API Data Ingestion, Source-to-Destination Field Mapping, Product Demonstrations
- **Data Pipelines & Cloud Architecture:** Machine Learning & NLP Workflows, Predictive Analytics & Statistical Modeling, Python & SQL Scripting, Cloud Services (AWS Lambda/S3, GCP Cloud Run), dbt Data Transformations, Advanced Excel
- **Advisory & Documentation:** RFPs, RFIs & Technical Documentation, Data Privacy, Confidentiality & Regulatory Requirements, Executive & C-Suite Briefings, Complex Scheduling, SLA Compliance, Cross-Group Collaboration, Union/Labor Governance (300+ Personnel)

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Enterprise Migration & Data Auditing:** Navigated digital health software architecture for an 18,000-user ecosystem during an intensive NextGen-to-Epic transition; audited source-to-destination field mapping and managed sensitive information and health systems data collection, ensuring strict data privacy, confidentiality, and regulatory requirements.
- **Incident Management & Root-Cause Diagnosis:** Engineered a manual tracking system in Google Sheets to capture processing telemetry and monitor system bottlenecks; conducted troubleshooting and independent root-cause analysis to identify problems and deliver data-driven problem solving for a new pilot division.
- **Workflow Remediation & Solution Documentation:** Reduced front-end process latency by 50% across healthcare operations; conducted technical discovery on operational shortfalls, defined target solutions architecture, and authored technical documentation, RFPs/RFIs responses, and product demonstrations for leadership.
- **Cross-Functional Leadership & Governance:** Elected 1199SEIU Union Delegate representing 300+ personnel; built strong relationships and acted with compassion to translate frontline operational friction into customer requirements through continuous cross-group collaboration with executive leadership.
- **Training, Mentorship & Patient Communication:** Provided continuous mentorship and onboarding training to incoming staff on digital health platform navigation, intake workflows, and patient communication standards to improve service delivery.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service logistics under peak operational demand; demonstrated learning agility to make critical decision making choices and manage prioritization of competing requirements.
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Project Execution & SLA Tracking:** Served as primary point of accountability for end-to-end project execution, prioritizing critical path deliverables and coordinating complex operational dependencies across teams of up to 100+ personnel.
- **Fiscal Stewardship & Resource Management:** Managed localized project budgets, vendor billing logs, and performance trends to ensure zero deficit across cross-functional program deployments.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Complex Scheduling:** Managed personal and business calendars, complex executive scheduling, and project coordination, ensuring confidentiality and regulatory compliance for international clients under tight timelines.
- **Cross-Cultural Regulatory Navigation:** Offered solutions to international clients by guiding them through complex US compliance documentation and tax requirements, utilizing deep business knowledge.

Technical Portfolio & Academic Projects

- *CI Project (Geospatial Advocacy and Predictive Analytics):* Engineered automated Python ingestion applications on Google Cloud Run for technology integration; built dbt transformation and database system configuration architecture compiling disparate datasets into a unified Kimball star schema.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed data-cleaning scripts via Pandas to handle sensitive information, map privacy-suppressed integers, and uphold data privacy standards.
- *PEX Project (Statistical NLP Pipeline):* Architected statistical artificial intelligence (AI/ML) workflows utilizing NLP and Python scripting to cluster unstructured survey data, evaluate customer experience, identify operational problems, and expose churn risks.
- *WHO Project (Healthcare Access System Architecture):* Designing a serverless AWS (Lambda, S3) cloud framework to transition manual referral management workflows into an automated technology integration pipeline; programming Python API buses for real-time data routing.

Education

Master of Science, Quantitative Methods and Modeling

Baruch College, Zicklin School of Business, New York, NY

GPA:

3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

Francis Marion University, Florence, SC

GPA:

3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
