

Professional Summary

Workforce Data Operations Architect & Quantitative Modeler with 15 years of experience leading business process analysis, optimizing enterprise data management infrastructure, and executing data governance across healthcare, public sector, and multistakeholder environments. Combines a Master of Science in Quantitative Methods and Modeling with a proven track record of analyzing complex data sets, identifying trends, establishing performance metrics, and driving continuous process improvement. Grounded in public administration, equity, and labor governance, specializing in policy analysis, data privacy, and translating frontline human resources (HR) operational friction into actionable technical requirements to support executive decision making and service delivery.

Core Competencies

- **Workforce Data & HR Management:** Enterprise HR Data Governance, Performance Measurement & Metrics, Business Process Analysis, Process Improvement, Data Management, Data Privacy & Auditing
- **Analytics & Business Intelligence:** Business Intelligence (BI & Power BI), Advanced Excel (Power Queries), Data Analysis Tools (SQL & Python), Data Cleaning & Architecture, Statistical Analysis & Modeling, AI/ML Concepts
- **Public Sector Leadership & Equity:** Cross-Functional Collaboration & Written Communication Skills, Multistakeholder Decision Making, Manage Competing Priorities, Capacity Building, Policy Analysis & Public Administration

Professional Experience

Lead Patient Care Associate (Implementation Consultant) | Callen-Lorde | April 2021 – March 2026

- **Enterprise Migration & Data Auditing:** Navigated core software architecture for an 18,000-user ecosystem during an intensive NextGen-to-Epic transition; analyzed complex data sets, audited source-to-destination field mapping, and maintained strict data privacy standards to preserve critical Electronic Health Record (EHR) demographic layers.
- **Incident Management & Root-Cause Diagnosis:** Engineered a tracking system in Google Sheets to analyze trends, monitor processing telemetry, and identify bottlenecks; conducted statistical analysis and independent root-cause analysis to support data-informed decision making and process improvement.
- **Workflow Remediation & Documentation:** Reduced front-end process latency by 50% to enhance service delivery and operational efficiency; provided technical feedback, business systems analysis, and initial workflow starting points to inform formal support playbooks while respecting union boundaries.
- **Cross-Functional Leadership & HR Governance:** Elected 1199SEIU Union Delegate representing 300+ human resources and healthcare personnel; demonstrated written communication skills and ability to collaborate across complex contexts, translating frontline friction into policy analysis and executive recommendations.
- **Capacity Building & Training:** Designed and delivered onboarding training to incoming staff on system navigation and data entry standards, driving capacity building, data management consistency, and continuous improvement.

F&B Reservation Agent and Server | The Standard Hotels & ABCV | May 2015 – May 2021

- **Multi-Venue System Coordination:** Orchestrated high-volume operational data and customer logic across 7 high-concurrency enterprise systems utilizing SevenRooms and Tripleseat platform architectures.
- **Database Record Integrity:** Maintained strict attention to detail to secure 100% record validation and deduplication accuracy across 300+ daily guest profiles within a shared global CRM database.
- **High-Concurrency Workflow Optimization:** Maintained complete ownership of real-time resource routing and service delivery under peak operational demand; demonstrated learning agility to make critical decision making choices and manage competing priorities .
- **Contract Validation & Fulfillment:** Facilitated small-scale event procurement contracts and localized revenue streams; utilized Microsoft Excel to reconcile accounts and verify 100% accuracy in contract tracking and financial reconciliation.

Senior Program Operations Lead | Del Monsoon | December 2010 – December 2020

- **Project Execution & Business Reviews:** Served as primary point of accountability for end-to-end program execution, business process analysis, and regular business reviews, establishing performance metrics and performance improvement goals across 100+ personnel.
- **Fiscal Stewardship & Resource Management:** Managed localized project budgets, vendor billing logs, and performance trends to ensure zero deficit across cross-functional program deployments.
- **Stakeholder Coalition Mobilization:** Mobilized regional community coalitions and networks, demonstrating exceptional communication and relationship building skills when presenting operational metrics to executive partners.

Personal Assistant & Project Manager | Independent Contractor | October 2018 – December 2020

- **Calendar Management & Project Coordination:** Managed personal and business calendars, demonstrating strong organizational skills and prioritization of client needs under tight timelines.
- **Cross-Cultural Regulatory Navigation:** Offered solutions to international clients by guiding them through complex US compliance documentation and tax requirements, utilizing deep business knowledge.

Technical Portfolio & Academic Projects

- *CI Project (Geospatial Advocacy and Predictive Analytics):* Engineered automated Python ingestion applications on Google Cloud Run for technology integration; built dbt transformation and database system configuration architecture compiling disparate datasets into a unified Kimball star schema.
- *SDOH Project (Epidemiological Analytics Engine):* Engineered offset Poisson regression models to analyze health systems outcomes across 141 NYC ZIP codes; programmed and debugged data-cleaning scripts via Pandas to map privacy-suppressed negative integers, troubleshoot anomalies, and isolate geographic variance.
- *PEX Project (Statistical NLP Pipeline):* Architected machine learning workflows utilizing NLP and Python programming/scripting to cluster unstructured survey data, identify problems, and expose churn risks.

- *WHO Project (Healthcare Access System Architecture)*: Designing a serverless AWS (Lambda, S3) cloud framework to transition manual, high-friction referral workflows into an automated technology integration pipeline; programming Python scripting buses to offer solutions for real-time provider and transit data routing.

Education

Master of Science, Quantitative Methods and Modeling

GPA:

Baruch College, Zicklin School of Business, New York, NY

3.525

Relevant Coursework:

Principles of Database Management, Programming for Analytics, Data Warehousing & Analytics, Systems Simulation Modeling.

Bachelor of Arts, French (minor: Art History)

GPA:

Francis Marion University, Florence, SC

3.633

Graduated cum laude with University Honors | Dean's List | President's List

Certifications & Community

Alteryx Designer Core Certified

Alteryx

Certified TESLA Instructor

(Literacy Assistance Center Academy) – Training, Instructional Design, Adult Education

Co-Founder & Event Producer, Queer Roots Cinema

30-member intergenerational community program; end-to-end production and inclusive event facilitation

Self-Care Methods

Continual academic pursuit; training in contemporary dance; tabletop RPG game mastery (collaborative storytelling)
